

DAYSHIFT – CNC OPERATOR

We are looking for a few new hires. Ideally they are looking for a long term position while advancing their skills in a state of the art aerospace manufacturing facility located in Diamond Springs.

The first 2 positions would be someone with a couple of years' experience as an operator and should be capable of basic setups. They should have the ability to properly inspect 3 axis parts on a plate with basic knowledge of GD&T .

Position #1/2

Dayshift CNC -operator / setup

Fulltime positions w/ overtime and opportunity for advancement.

Employer pays 100% of employees monthly premium, Medical, Vision and Dental.

Salary DOE

401K

The Third position.

The perfect candidate would be someone with several years on a multiaxis mills and Lathes.

We have Haas, Fanuc, Mitsubishi, Heidenhain and Celos controls.

Must be comfortable working with difficult parts.
