quite aspirational in aiming for even more coordination and integration of services among the partnership.

AS OSO, I have conducted the assessment in January-March of this year, with vital input from many system partners. The WDB must review and approve this assessment. *The WDB is also encouraged to give input and feedback to the assessment.* I have shared the EDD draft Directive with all the partners early in January. Shortly after that, I sent to the partners a concise and easy to complete feedback format for them to give their views of the current system. This also allows the system to review interactions among the partners and their suggestions on improvements. As to be expected, some of assessment and analysis speak to the current Covid-19 situation, but the assessment areas from the State are looking to a non-COVID-19 future.
